DETAILED ACTION

Drawings

1. The drawings are objected to because some of the figures are not completely readable (drawings submitted on 7/2/01; including Figs. 1, 2A, 2B, 2C (**more possible**)). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Applicant is urged to review all current drawings for possible defects and errors.

Applicant is also urged to review the entire specification for possible defects and errors.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 22 is vague and indefinite. Claim 22 is dependent upon canceled claim 21.

Allowable Subject Matter

3. Claims 1 – 14, 16 – 20, 23 – 28, 30, and 32 – 35 are allowed.
